## **San Bruno Police Department to Step Up Enforcement for Distracted Drivers**

In an effort to make our roads safer, the San Bruno Police Department is deploying extra traffic enforcement officers on Wednesday April 20<sup>th</sup> to stop distracted driving. San Bruno PD is spreading the message that distracted drivers are not only a danger to themselves, but to everyone on the road.

Using an electronic device while driving is a serious safety problem. Most drivers know that texting while driving is a dangerous behavior, but many still use their cell phones and other mobile devices when they are behind the wheel, putting themselves and others at risk. Many drivers see distracted driving as risky when other drivers do it, but do not recognize how their own driving deteriorates with these distractions.

In 2013, there were 3,154 people killed and an estimated 424,000 injured nationwide in crashes involving a distracted driver. That same year, 10 percent of fatal crashes were reported as distraction-related crashes.

While anything that takes your eyes off the road, hands off the wheel, or mind off the task of driving is a hazard, there is heightened concern about the risks of texting while driving because it combines all three types of distraction – visual, manual and cognitive. In addition, most drivers aren't aware that just talking on a cell phone, hand held or hands free, can lead to "inattention blindness" as critical brain functions needed for driving are used for cell phone talking.

The San Bruno Police Department recommends the following safety measures:

### **You can:**

- Turn off electronic devices and put them out of reach before starting to drive.
- Speak up when you are a passenger and your driver uses an electronic device while driving. Offer to make the call for the driver, so his or her full attention stays on the driving task.

**Parents can:**

- Be a good role model for young drivers and refuse to use your phone while driving. Talk with your teens about responsible driving.
- If you know your teen is on the road – don't call or text them until you know they have reached their destination.

**Employers can:**

- Adopt, publicize, and enforce company policies that prohibit employees from texting or talking on hand-held cell phones while in a company vehicle, or in a personal vehicle while using a company issued cell phone.

Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration. For more information about distracted driving, please visit [www.distraction.gov](http://www.distraction.gov).
